

III RADS 2 RAILS III

EDITION 8

# Product Guide & Price List

Created for the trade. Designed for life.

Rads 2 Rails was created for one reason: to provide high quality designer radiators and towel rails at superb prices. Our products have also been specially selected in a range of sizes and finishes perfect for everyday projects. Plus, all models are stocked in a range of popular colours.

## Our approach

- Superb value: products designed to last and designed for everyday projects
- Quick deliveries on stocked models
- Nationwide availability: order our radiators and towel rails from a merchant or showroom near you
- Smart range: radiators and towel rails in the sizes you need for everyday projects
- Quality assured: all models are backed by a minimum 5 year\* guarantee and are in accordance with EN442

## About us

Rads 2 Rails is a division of MHS Radiators Ltd, a leader in high quality designer radiators in both the retail and commercial markets.

Founded as a family business in 1980, the company continues to offer practical yet exciting radiator designs suitable for a range of domestic and commercial applications.

We operate our own state of the art assembly and finishing plant in Rochford, Essex, allowing us to deliver high quality painted finishes in just 7-10 working days.

All products are stocked and distributed from our dedicated warehouse in Basildon, Essex. Our fleet of delivery vehicles ensure your radiators arrive in perfect condition, when you need them.

To find your nearest merchant or showroom, or for help calculating your heat output requirements, visit our website:

[www.rads2rails.co.uk](http://www.rads2rails.co.uk)

## Terms & Conditions

All outputs are stated in accordance with EN442 at  $\Delta T$  (Delta T) 50°C.

Please note: VAT will be charged at the prevailing rate. To see our full terms and conditions, please visit [www.rads2rails.co.uk](http://www.rads2rails.co.uk)

\*2 year warranty on electrical components

**Note:** The Hampstead is supplied in a grey primer that requires overpainting. We advise not to use any water based paints as they can lead to rust patches.

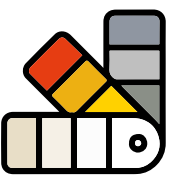

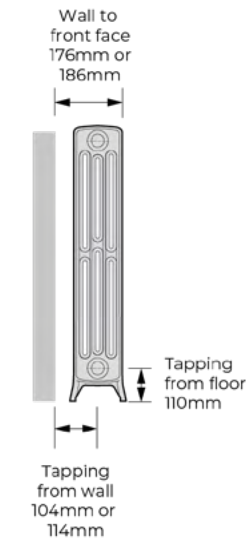

Do NOT powder coat this product. Powder coating will invalidate the warranty.

# COLOUR MATCHING

If you're looking for a colour other than those shown in our colour chart, we can finish your radiator to any RAL colour in gloss, semi-gloss or matt finish.

We also offer a colour match to most designer paint brands.

Colours outside of our colour chart carry a £50 ex VAT (£60 inc VAT) special mixing charge.

# CORRECTION FACTORS

The outputs shown within this brochure are based on BS EN442. BS EN442 specifies that all outputs must be stated at  $\Delta T$  50°C, which is based on 75-65-20°C operating conditions.

The  $\Delta T$  is calculated by taking the mean water temperature and deducting the ambient air temperature.

For example, a typical air-source heat pump system will have flow temperatures of 45°C and return temperatures of 40°C. With an ambient air temperature of 20°C, this means the system is operating at  $\Delta T$  22.5°C.

To calculate the output of a radiator at operating conditions other than  $\Delta T$  50°C, multiply the listed output by the correction factors shown in the table below.

$\Delta T$	Correction Factor
60	1.267
59	1.240
58	1.213
57	1.186
56	1.159
55.5	1.145
55	1.132
54	1.105
53	1.079
